

European Metallic Silhouettes Championship CHÂTEAUX-DEOLS 2019

SHOOTING PROTOCOLE

GENERAL

When your name is called, you can start your tries, on the firing point dedicated.

You have the choice to shoot your tries in ONE of the four match series following.

After the lifting, you begin your match on your match firing point corresponding (see schedule per series). There will be no possible changes of firing post during the match.

- **4 series of 5 shots (2 x 5 chicken + 2 x 5 pigs)**
- **Lifting**
- **4 series de 5 shots (2 x 5 turkeys + 2 x 5 rams)**
- **Lifting**

Possible shooting incidents will be settled at the end of each 4th serie of five shots (so after the pigs or after the rams, depending when the incident happens in a shooter's match), with partial lift if necessary.

BIG BORE RIFLE

One or two shooters can be called at the tries at the same time and on the same firing point.

They have to choose ONE EACH (not the same) of the fourth match series following.

After the lifting, shooters start their match by the first 4 series of 5 shots as follow:

- **Shooter #1 (name on the left) starts the first serie of 5 chicken**
- **Shooter #2 (name on the right) starts the first serie of 5 pigs**
- **Shooter #1 goes on with the second serie of 5 chicken**
- **Shooter #2 goes on with the second serie of 5 pigs**

Then, shooter #1 starts the pigs, and shooter #2 starts the chicken.

And so on for the turkeys and the rams. This process is set up to make the rifle's barrel cool.
