### **How to qualify?**

The Qualification for the ISSF World Cup Final 2023 is possible by gaining ranking points through the ISSF Ranking System.

Each athlete, who is officially registered to compete in an ISSF World Cup by his/her National Federation – ISSF Member Federation – can qualify for the ISSF World Cup Final in one (1) or more events.

At the end of the ISSF World Cup Series of 2023, the top twelve ( 12) athletes in each event with the highest ranking points values , according to the ranking list will qualify for the ISSF World Cup Final. Within one (1) event, only a maximum of two (2) athletes per nation will be permitted to compete in the ISSF World Cup Final.

Apart from this qualification system, the three (3) medalists of the ISSF WCH Baku – AZE 2023 will have the right to compete in the ISSF World Cup Final. The rule of only a maximum of two (2) starts per nation in one (1) event will not apply to these athletes.

If an athlete has been qualified both from ISSF Ranking System and World Championships, or if a Nation has more than the maximum allowed athletes, the qualification will then go to the next placed athlete in the ISSF Ranking System.

### **Wild Cards**

At least two (2) athletes may represent the organizing National Federation. If no athlete qualifies in any event or if only one (1) athlete qualifies, the organizing National Federation may be awarded one (1) or two (2) Wild Cards, so that the organizing National Federation will have two (2) athletes in the ISSF World Cup Final. If Wild Cards are awarded, they should be awarded so that one (1) male and one (1) female athlete participate, although in exceptional cases, the Wild Cards may be awarded so that the organizing National Federation is represented by two (2) men or two (2) women. To receive a Wild Card, the organizing National Federation must apply to the ISSF Headquarters by nominating the athletes who are to receive the Wild Cards, at least 30 day upon arrival. The application must provide the athletes' names, ISSF ID numbers and the event in which each athlete will participate.
