15 MAY - 27 MAY 2024**

Cartridge Controls

During Qualification, athletes whose cartridges are to be tested are selected by a computer draw. Between 10% and 18% of the athletes participating in an event will be selected for cartridge testing. Two (2) plus four (4) cartridges will be selected from each athlete and placed in separate labeled envelopes. The two (2) cartridges must be tested, first. If both cartridges weight 24.50 g or less, no further action will be taken. If one (1) or both cartridges weight more than 24.50g, then the four (4) cartridges in the second envelope must be tested. If the average of the six (6) cartridges weight more than 24.50 g, then the athlete must be disqualified (DSQ).

During Finals all finalists must be tested using the same procedure. The Finalists or their Coaches/Officials must bring, as early as possible, but not later than 30 minutes before the scheduled start of the Finals (Reporting Time), all the cartridges that will be used during the Finals and place them in separate Cartridge Control Boxes on the Finals field of play, at the designated area. The Finalists must report at least 15 minutes before the start of the Final. The Equipment Control Jury will take the necessary samples from the boxes, and the boxes will be sealed. The boxes must be left under the supervision of Equipment Control Jury

Member on the FOP. Once ammunition is placed in the box and sealed, only the Equipment Control Jury or the Finalist can remove ammunition from the box. If during the Final additional cartridges are brought to a Finalist, samples from those cartridges must also be selected for testing. All cartridge controls must be completed before the start of the Presentation of the Finalists. Any disqualified (DSQ) athlete will not be allowed to participate in the Finals.

Colored Wads

Only transparent or translucent wads with no color may be used.

If an athlete uses ammunition that is not in accordance with Rule 9.4.3.1 a), then the athlete must be disqualified (DSQ).

Equipment Control

Equipment Control will be open to competitors as scheduled in the Program of the competition.

7. Immigration and Customs Requirements

Entry Visa

Italy is a member of the European Union and Schengen Agreement.

EU Nationals are able to enter Italy with a valid passport or with a valid ID Card.

Countries that require an Entry Visa for Italy should apply to the Italian Embassy/Consulate in their Country well in advance before departure. Detailed information regarding Visa can be found in the website of the Italian Ministry of Foreign Affairs: www.esteri.it or vistoperitalia.esteri.it/home/en

Those Federations who need a specific Invitation Letter to apply for a Sport Visa, must contact FITAV, Federazione Italiana Tiro a Volo, **not later than APR 15TH, 2024**

E-mail: visa@fitav.it

Phone: +39-06-4523 5212 / 5234 / 5246

The Italian Shooting Federation has no influence on the Embassies and will only be able to provide invitations for the period of the ESC European Championship and eventual pre-event training.

No Visa will be granted upon arrival at the airport.

Customs Formalities, Import of Firearms

A max. of three (3) shotguns and 1.200 cartridges are allowed to enter in Italy.

European Union nationals holding a “European Shotgun Certificate” can import to Italy their firearms without an auxiliary permission; however, they are requested to fill in the “Firearm and Ammunition Form” for Local Police security reasons.

To the Athletes not holding the European Firearm Certificate, the Italian Shooting Federation soon after receiving the “Firearm and Ammunition Form” duly filled in, will send the gun permit.

The FITAV permit or the E.F.C. must be shown to the Police Authorities together with an invitation letter from the Club or the Organizing Committee, confirming the athlete’s participation in the event.

The same letter will also be sent to athletes traveling by car and presented, together with the documents above, to the Italian Police in case of a check during the trip.

All the athletes traveling by plane will have to fill in an additional double copy declaration on arrival at the Italian Airport. (As complimentary the OC or FITAV staff members will do it on their behalf).

This form, together with the FITAV permit, or the European Firearm Certificate at departure from Italy, must be returned to the Police Officers.

The Security service for the delivery of firearms and ammunition in Italian Airports has changed.

There is no longer an internal security service but each airline makes use of an external individual security company that provides the service on-call.

In order not to delay the delivery of firearms and ammunition upon arrival, each participating Federation is recommended to book the flights, by declaring the shotguns in the reservation well in advance, to allow the airline to organize the transshipment service and delivery to the Police office in charge for the control of the weapons.

The O.C. has NO influence on the airlines in this regard.

For facilitating the immediate weapon recognition, the gun cases CANNOT be protected or placed into another type of travel bag (canvas, plastic etc..).

Non-European Union citizens are also suggested to take with them a copy of their passport which will be handed to the Police station together with the other forms at arrival, in order to speed the procedure.

- Please DO NOT send any passport copy to the Organizing Committee.

- Police and Customs firearms formalities will take place upon arrival at the first airport on Italian National Territory and at the last one at departure.

- The Organizing Committee will NOT be responsible with the Italian Police at the airport for any incorrect information provided by the NPC related to firearms and ammunition.

Any request to change the shotguns details after the deadline must be notified to **FITAV** until five (5) days prior to arrival. Changes after that date will not be accepted.

Useful Information on the carriage of shotguns on International Flights :

. As a rule before issuing any ticket the travel agency appointed to book the flights should make sure that both ammunition and the firearms are accepted on board the aircraft till the final destination.

. The approval should appear on the electronic ticket (on the PNR Passengers Name Record) or on a separate message sent to the travel agency by the Airline Company.

. The rules governing the carriage of ammunition and firearms appertain to the Carrier who owns the aircraft therefore in case of flights made in code-sharing, the approval must come from both companies even if on the ticket the abbreviation of only one Company appears (i.e.: AF – BA – EK – LH – UA, etc.)

Normally, the final decision to accept firearms and ammunition on board comes from the Captain but once you have the "OK" on your flight ticket, the Company is responsible for having your firearms sent to destination.

. In case of indirect flights it is advisable to consider a connection of at least two hours.

Upon landing at the first airport, report to the information counter and make sure that your firearms have arrived and will be taken on board of the connecting flight.

. Still in case of indirect flights, avoid booking them with two different Airline Companies as most of the times, the firearms will be discharged at the first airport and the owners will have to collect them and make a new check-in. That, provided the local Police and Customs Authority do not cause problems of licenses, will probably cost extra security and boarding tax and, sometimes, extra-baggage fees.

If passengers are not informed they risk arriving at the final destination without knowing that their guns have not been loaded on the connecting flight and are laying in the previous airport.

In many Countries even if passengers are in transit and the baggage is labeled till destination, the control of firearms is made at the first airport of arrival; in others, the control is made at the first airport of arrival in the Nation passenger are headed for.

This is why it is advisable to ask your travel agency for collecting as much information as possible before departure, then, keep the situation under control step by step.

All firearms and ammunition must be declared while making flight reservation and at check-in and follow the procedure reserved to these special articles. It is a big mistake to pack them into normal bags and dispatch them into normal baggage because in case of loss it will be very difficult to find the firearms and, last

but not least, owners will be liable to heavy fines.

As for Italy, Police and Customs formalities for ammunition and firearms must be dispatched at the first airport of arrival on the Italian Territory.

They will be taken by the Security guards to the Police station located inside the international area where each gun holder will collect them and, if the airport of arrival is not the same of destination, it will be necessary to make a new police control and a new check-in in the domestic departure area.

To avoid such a big trouble, we suggest all the athletes direct to Lonato Del Garda to book their flights in order to land directly at one of the Northern airports listed in section 9 of this General Information even if not all of them are considered as " official airports " for the event.
